# Cristian Tapoi

## Senior Full Stack Developer

Bucharest, Romania

+4075555105

[cristiantapoi6@gmail.com](mailto:cristiantapoi6@gmail.com)

[linkedin.com/in/cristian-tapoi](https://linkedin.com/in/cristian-tapoi)

## SKILLS

Senior Full Stack Developer with 9+ years of experience specializing in **TypeScript, Node.js, React.js, and scalable full-stack architectures**. Proven expertise in developing high-performance, user-centric web applications, optimizing backend APIs, and integrating cloud-based solutions. Adept at working with **Next.js, Express.js, Nest.js, PostgreSQL, and GraphQL**, with a strong focus on building **robust, scalable, and secure web platforms**. Passionate about clean code, best practices, and enhancing developer productivity through automation, testing, and performance optimizations.

## EXPERIENCE

**Conzentra, Spain** - Senior Full Stack Developer

 Apr 2023 - Present

**Tech Stack:** Next.js 15, TypeScript, Tailwind CSS, Redux Toolkit, React Query, Node.js, PostgreSQL, Prisma ORM, Sanity CMS, AWS, Docker, GitHub Actions, Sentry, Datadog

- Designed and implemented **sellers.qogita.com** using **Next.js 15** for managing orders and inventory.
- Built **server-side APIs with Node.js & Prisma ORM** for seamless integration between the frontend and database.
- Automated CI/CD pipelines using **GitHub Actions, Docker, and Vercel**, improving deployment speed and reliability.
- Integrated **Sanity CMS v3**, allowing non-technical stakeholders to manage content efficiently.
- Developed the **KYC (Know Your Customer) system**, including **phone number verification** and fraud prevention mechanisms.
- Introduced **E2E testing with Playwright & Cypress**, ensuring high product reliability and reducing manual QA efforts.
- Contributed to **Qogita UI Component Library**, standardizing reusable UI components across the platform.

---

## METRO SYSTEMS, *Romania* - Senior Full Stack Developer

 Aug 2019 - Mar 2023

Tech Stack: React.js 18, Next.js, Node.js, Nest.js, PostgreSQL, GraphQL, Tailwind CSS, Redux, WebSockets, Redis, AWS Lambda

- Built **internal tools** to streamline operational processes, significantly reducing manual workload for teams.
- Developed **VoIP call integration** for Bolt's ride-hailing client, enhancing communication features.
- Led the **redesign and implementation of the active order screen**, improving UX and performance.
- Built a **penalties system for Bolt Drive & Scooters**, reducing fraudulent activity and improving user accountability.
- Developed **custom WebSockets & real-time notification systems** for Bolt's platform, ensuring live updates.
- Implemented **GraphQL APIs using Nest.js**, enhancing data retrieval efficiency and reducing server load.
- Mentored junior developers, providing guidance on **full-stack best practices, TypeScript, and API development**.

## HERMOSA Fashion, *Romania* - Full Stack Developer

 Nov 2017 - Jul 2019

Tech Stack: React.js 16, Node.js, Express.js, PostgreSQL, GraphQL, Styled-components, Redux, WebSockets, Docker, AWS

- Developed a **custom e-commerce platform** with real-time inventory tracking and multi-language support.
- Designed and implemented **GraphQL APIs** with Express.js for handling customer orders and product catalogs.
- Optimized **server-side rendering (SSR) in Next.js**, improving SEO and page load times.
- Collaborated with UI/UX teams to enhance user engagement with interactive product pages.
- Built **real-time chat & customer support** features using WebSockets and Redis.
- Automated deployment workflows with **Docker, AWS Lambda, and CI/CD pipelines**.

## HERMOSA Fashion, *Romania* - Web Developer

 Oct 2016 - Oct 2017

Tech Stack: React.js, Redux, Bootstrap, Material UI, Express.js, MongoDB

- Developed responsive web applications using **React, Material UI, and Bootstrap** in an Agile environment.

- Maintained and optimized **Node.js backend services** to enhance performance.
- Built **RESTful APIs** for handling customer authentication and product management.

## EDUCATION

**University of Bucharest, Romania** - *Bachelor's Degree in Computer Science*

2012 - 2016

Majored in Software Engineering

## SKILLS

<b>Frontend Development</b>	React.js, Next.js, Redux, Redux-toolkit, Zustand, React Query, SASS (SCSS), React-Hook-Form, Material UI, Tailwind CSS, Storybook, Daisy UI, HTML, CSS, TypeScript, JavaScript, Responsive Design, SWR, Apollo, Formik, Flowbite, Framer-Motion(motion), RTK-query, styled-components, Emotion
<b>Backend Development</b>	Node.js, Express.js, Nest.js, TypeORM, Prisma ORM, Sequelize ORM, MySQL, PostgreSQL, MongoDB, AWS, GCP, Kafka, RabbitMQ, Redis, OAuth, JWT, SSR, SSO
<b>API &amp; Integration</b>	GraphQL, REST APIs
<b>Project Management</b>	Agile Scrum, Figma, Design Documentation, Mentoring and Onboarding
<b>Building Tools</b>	PWA, Module Federation, Grunt, Gulp, Webpack, Babel, Parcel, NPM, Yarn
<b>Testing</b>	Jest(Unit testing), Cypress(E2E testing), Vitest, Storybook, playwright
